Institutions.

HE statisticians, politi-cians, and guide-books have furnished such s comprehensive fund of misinformation with regard to the foreign countries with which we are most intimately related, that the American, when he gets into one of them, the first thing he is called upon to do is to lose himself in astonishment at the magnitude of his mis-

conceptions. Sailing from New York on the Cunard liner Aurania on the 25th of June, we had a voyage comfortable

unto the verse of monotony. There was not a gale in the air sufficient to fly a kite, nor an incident, not even a fliritation, on board the vessel of sufficient interest to promise a row. Everybody houestly confessed that they expected to be seasick, but out of 400 in family only five realized their expectations. The writer was ant one of them. Seasickness has to a large extent ceased to be one of the terrors of the great deep. An overpowering indolence

has taken its place. After a man has spent a week amid the comfort of one of our great ocean liners he reaches the other side in an excellent frame of mind to tip the first porter he meets to help him draw his breath.

The usual number of ships, whales, and porpoises were sighted, but the only object of real interest sighted was the wreck of the City of Chicago, which had occurred 12 hours before under Old Kinsale Head. At the same time the fog lifted, and the dark-green hills and growing late we would go to our rooms. smiling laudscape of old Ireland was before us until we dropp d anchor in Queenstown Harbor and the tender "Jackall" took us ashore in the dominions of the Queen, whose first question was, "Have you any spirits, cigars, tobacco, or firearms in your possession?" This being answered satisfactorily, the gate was opened and the freedom of the country was

A half-hour by rail lauded us in Cork, and that evening we saw Shandon Church, with its bells that sound "so grand on the pleasant waters of the River Lee." To the unprejudiced ear they sound very much like a number of other bells that are to be heard in various parts of the world. Next came St. Mary's Cathedral, St. Patrick's Chapel, the Customhouse, the Parnell Bridge, and St. Patrick street, including Cork Park, distinguished by the entire absence of trees and everything else, except a race-track, grand stand, and an entrance-gate to keep a flock of sheep in.

Cork's streets are laid out like a cobweb, but its buildings, public and private, its bridges, ourys and roads are built to stay. They are all stone, and massive in construction, mostly with iron door- and window-frames, and iron or slate roofs. There is nothing to encourage the fires that occur about as often as eclipses. The city reservoir is nearly 500 feet above St. Patrick street, and it is no encouragement to a well-intentioned fire to find the porter washing o'clock.' the fifth-story windows with a pave-wash attached to a section of forcing-hose with an inchand-a-quarter nozzle.

who can furnish proof to that effect. This so-

He made me a political speech, for which I gave him sixpence, which he at ouce invested in a large and commodious addition to his "jag." I found out later that he had spent his early days in Baltimore.

Having investigated all the lions we found handy, including a big "bread factory" and a daily newspaper office that had not yet heard of the wreck of the City of Chicago, we deemed it about time to knock off work and get shaved for Sunday.

We found an alleged barber shop up an alley back of the Victoria Hotel. It was about eight by 10 feet, with two ordinary kitchen chairs, in which we sat amid the accumulated dirt and dust of at least a century, and had a penny shave each. The barber was an expert with the razor, both as regarded speed and ease, but the professional flirt with which he threw the lather and hair off his razor onto the floor, the wall, and the waiting, pipe-smoking customers, was a revelation in skilled workmanship just the least disconcerting, because you pretty near never could guess where the lather was going to fetch up after the flirt. There was no hair dressing connected with this shop. If you wanted that you had to hunt up the hair dresser two squares away. Our faces were vigorously washed off with a coarse towel that had such a family resemblance to the pressroom towel of my youthful days, that it almost

brought tears to my eyes. Reaching the hotel again we remarked to Mr. John Neehan, the landlord, that as it must be

"Yes," replied Mr. Neehan, "it must be getting nigh unto sundown." Looking at my watch I saw it was 20 minutes to 8 o'clock, and at once wanted to know what time the sun was in the habit of retiring.

"I think," said he, "it sets now about & o'clock."

They are distinguished from each other by having their names, "Myrtle | Villa," "Huckleberry Lodge," and "Willow | Grove," as the case may be, on a plate on the front gate. Preparations of elaborate description have been made for the great event. By concerted action of the citizens the streets and buildings of the city, particularly in the business center and in the direction of the Exposition grounds, have been tastefully and protusely decorated. The main features of the program, as finally agreed upon, are the following:

A reception and banquet to the presiding officer of the occasion on Wednesday evening; on Thursday, an imposing procession, indicative of peace, prosperity, and patriotism, participated in by fraternal and other civic organizations through the business portion of the city; in the evening minor receptions and banquets; Friday, Dedication Day proper, a procession escorted by United States cavalry and light artillery, consisting of all the high Federal. One of the most important of the facts ascertained is that seals do not migrate in families, but that the males prefer to congregate in certain places and the females in others. An attempt will be made to arrange with Great Britain to prevent the killing of female seals in certain regions which they frequent in the North Pacific. This the American experts regard as almost as important as the protection of the Pribyloff Islands. It was voted by the llth annual meeting 'That a standing committee of three (on Insurance) be appointed by the Commander-in-Chief to carefully investigate, formulate a plan, and report at the 12th annual Encampment of the Commanderyin-Chief." The Ladies' Aid Society may be made as helpful an auxiliary to our Order as is the W.R.C. to the G.A.R., thereby aiding us materially in reverent service to the G.A.R., and I urge Division Commanders to render every possible assistance to the officers of the L.A.S. in extending the growth of that valuable organization. That no misconstruction may retard the work of organizing new Societies. I quote from the eligibility clause of that Order's Constitution, as follows: ship shall consist of, first, mothers, wives, and sisters of deceased or honorably-discharged soldiers, sailors, or marines who served in the Union Army or Navy during the civil war of 1861-1865; second, female lineal descendants, not less than 16 years of age, of soldiers, sailors, or marines; third, wives of Sons of Veterans." THE DIVISIONS.

Senior Vice Commander P. A. Durant, Illinois Division, has sent invitations to all Camps near Chiengo to take part in the civic parade, Oct. 20. Col. E. E. Ellsworth Camp, 87, was visited Oct. 6 by Past Captain C. A. De Lang, of Chicago Camp, 1, and Senior Vice Commander Cheney, of Custer Camp, 6. The personnel of the Camp has changed greatly during the last few months, and the organization is now in shape to take an advanced position. A company of Guards is being recruited and will soon be mustered.

Scores of brothers will be pleased to learn of the announcement of Mr. and Mrs. Leland J. Webb of the marriage of their daughter Mabel P. to Harry The American delegates to the Monetary J. Wells, Oct. 19. The happy couple will be at home Nov. 1, at 1216 Taylor street, Topeka, Kan. MINNESOTA.

Out of the 67 Camps in good standing in this Division, 27 were reported promptly for the quarter by Sept. 30. A few of these show gains in membership. The Division Commander says: "Captains and their officers who permit the fair reputstions of their Camps to suffer by reason of failure to send reports and tax injure not only themselves but the Order as well. Show that you are worthy of confidence by reason of character, habits and business methods, and you will retain the confidence of all your associates.

Following is a list of the 10 Camps who were first to send in their reports. They deserve special mention for their promptness: Neweil Irvine Camp, 89, Monticello; Joseph Downs Camp, 76, Champlin; Lincoln Camp, 7, Duluth; Le Roy Camp, 88, Le Roy; Madelia Camp, 77, Madelia; B.
